The Joint Managing Authority (JMA) of each programme will regularly launch calls for proposals allowing applicants to submit projects for financing. The programme will decide on the submission deadline and the eligibility criteria for each call. These criteria include the eligibility of applicants, the project size, cooperation sectors, etc.

The JMA will sign one contract per project covering both Member States and partner countries. The JMA will manage the projects with support from the Joint Technical Secretariat (located in the Member State hosting the JMA) and the branch offices (located in both member states and partner countries). One set of rules will apply to these projects on both sides of the EU external border.

Who can apply?
Based on the ENPI regulation priority will be given to:
• local and regional authorities;
• NGOs, development organisations, business associations, cultural or scientific institutions;
• other key organisations in the eligible regions.

The eligibility of applicants will be specified in each call for proposals.

Partners
A partnership between an EU Member State and a partner country is obligatory. Each project should represent at least one Member State and one partner country. A good partnership is key to the success of a project.

The European Commission provides technical support to the CBC programmes mainly by financing two projects: RCBI and INTERACT ENPI.

Regional Capacity Building Initiative (RCBI)
The RCBI project supports the partner countries in the preparation and implementation of the ENPI CBC programmes.

RCBI activities include:
• information on ENPI CBC opportunities;
• support to identify and develop projects;
• help to find partners on both sides of the border;
• training in project management.

RCBI contact: Veronica Vann – Team Leader

INTERACT ENPI
The INTERACT ENPI project provides a platform where all ENPI CBC stakeholders meet to share their expertise and good practices.

The INTERACT ENPI project is managed by the self-governing region of Bratislava in Slovakia. Two INTERACT ENPI points have been set up and are respectively hosted by the Ministry of Employment and Economy in Turku, Finland, and by the Region of Tuscany in Florence, Italy.

INTERACT ENPI activities include:
• specific advisory services to the Joint Managing Authorities;
• organising seminars for the ENPI CBC community on technical or strategic matters;
• a virtual platform where all programmes can regularly discuss problems and find solutions;
• studies, tools and manuals.

INTERACT ENPI contact: Hitta Ahdan – Team Leader

Cross-Border Cooperation (CBC) is a key priority of the European Neighbourhood and Partnership Instrument (ENPI). Its objective is to reinforce cooperation between Member States and partner countries along the external borders of the European Union.

The CBC strategy has four key objectives:
• to promote economic and social development in border areas;
• to address common challenges;
• to ensure efficient and secure borders;
• to promote people-to-people cooperation.

In total, 15 CBC programmes (nine land border, three sea crossing and three sea basin programmes) have been identified on both sides of the EU’s external borders in the east and in the south with a total funding of EUR 1.1 billion for the period 2007–2013.

How does Cross-Border Cooperation work in practice?
A fully balanced partnership: partner countries and Member States work together within a common management structure, applying a single set of implementing rules and sharing one single budget. Common needs are identified by local partners on both sides of the border for activities that are most relevant to their local situation.

- The Kolaarctic Programme
  (Financial allocation: EUR 28.241 million)
  Joint Managing Authority: the Regional Council of Lapland, Finland

- The Karelia Programme
  (Financial allocation: EUR 23.203 million)
