EU/UKRAINE ACTION PLAN

1. Introduction

The enlargement of the European Union on 1 May 2004 has brought a historical shift for the Union and Ukraine in political, geographic and economic terms. The EU and Ukraine now share a border and, as direct neighbours, will reinforce their political and economic interdependence. Enlargement offers the opportunity for the EU and Ukraine to develop an increasingly close relationship, going beyond co-operation, to gradual economic integration and a deepening of political cooperation. The European Union and Ukraine are determined to enhance their relations and to promote stability, security and well-being. The approach is founded on shared values, joint ownership and differentiation. It will contribute to the further stepping up of our strategic partnership.

The European Union and Ukraine are determined to work together, through the implementation of this European Neighbourhood Action Plan, to help ensure that no new dividing lines are drawn in Europe.

Ukraine and the European Union agreed to enter into intensified political, security, economic and cultural relations, including cross border co-operation and shared responsibility in conflict prevention and conflict resolution.

The pace of progress of the relationship will acknowledge fully Ukraine’s efforts and concrete achievements in meeting commitments to common values.

This Action Plan is an important new step in this process. It covers a timeframe of three years. Its implementation will help fulfil the provisions in the Partnership and Cooperation Agreement (PCA) as a valid basis for EU-Ukraine cooperation, and will encourage and support Ukraine’s objective of further integration into European economic and social structures. Implementation of the Action Plan will significantly advance the approximation of Ukrainian legislation, norms and standards to those of the European Union. It will also build solid foundations for further economic integration, including through joint efforts towards an EU-Ukraine Free Trade Area following Ukraine’s
accession to the WTO, on the basis of the adoption and implementation of economic and trade-related rules and regulations with the potential to enhance trade, investment and growth. The Action Plan will furthermore help to devise and implement policies and measures to promote economic growth and social cohesion, to raise living standards and to protect the environment, thereby contributing to the long-term objective of sustainable development.

Ukraine and the EU will work together in implementing this Action Plan. As confirmed in the EU’s Common Strategy on Ukraine, the European Union acknowledges Ukraine’s European aspirations and welcomes Ukraine’s European choice.

**New partnership, economic integration and cooperation perspectives**

The Commission is furthermore proposing a new European Neighbourhood and Partnership Instrument (ENPI) for this purpose, also covering the very important aspects of cross-border and trans-national cooperation between Ukraine and the Member States. There will also be support through the European Investment Bank for projects involving infrastructure investment;

The advisability of any new contractual arrangements will be considered in due time.
