

ASSOCIATION AGENDA

BETWEEN

THE EUROPEAN UNION

AND

THE REPUBLIC OF MOLDOVA

Brussels, 26 June 2014

Association Agenda

between the European Union and the Republic of Moldova

The European Union and the Republic of Moldova ('the parties') recognise that the context of their relations has changed in a significant and positive way since they entered into the Eastern Partnership. The parties began negotiations on an Association Agreement in 2010, and on a deep and comprehensive free-trade area that would be an integral part of that Agreement, in 2012. They have also developed and launched a visa liberalisation action plan, whose successful implementation is a fundamental element underpinning the Republic of Moldova's political association and economic integration with the European Union. This substantial enhancement of mobility and people-to-people contacts is envisaged in the Association Agreement.

Negotiations on the Association Agreement were completed on 25 June 2013, and the Agreement was initialled on 29 November 2013. Before the full Agreement enters into force, measures must be put in place to ensure that the parties are able to enjoy its full benefits; the Agreement's partial provisional application is the first of these measures. The aim of the Association Agenda is to prepare and facilitate the implementation of the Association Agreement, by creating a practical framework through which the overriding objectives of political association and economic integration can be achieved. It replaces the EU-Moldova European Neighbourhood Policy Action Plan.

The Association Agenda sets out a list of priorities for joint work in the 2014-16 period, based on the structure of the Association Agreement.

The fact that the Association Agenda focuses upon a limited number of priorities does not affect the scope or mandate of dialogue currently being carried out under the Partnership and Cooperation Agreement, other relevant agreements or the multilateral track of the Eastern Partnership. It does not prejudice the implementation of commitments made under the Association Agreement once this enters into force or is provisionally applied.

1. Principles, instruments and resources for implementing the Association Agenda

The following common principles will guide the implementation of the Association Agenda:

- Actions undertaken as part of the Association Agenda should be implemented in the spirit of the overall objectives of political association and economic integration;
- The priorities of the Association Agenda reflect the responsibility of the EU and the Republic of Moldova to fully implement the provisions of their Association Agreement, once it enters into force;
- The Association Agenda should be implemented in full respect of the principles of transparency, accountability and inclusiveness;
- Both parties must be involved in implementing the Association Agenda;

- The Association Agenda aims to achieve tangible and defined results through the progressive implementation of practical measures;
- The parties recognise the importance of supporting the agreed priorities through appropriate and sufficient political, technical and financial means; and
- The implementation of the Association Agenda will be subject to annual reporting, monitoring and assessment. Progress made will be reviewed, including under the Partnership and Cooperation Agreement and other relevant agreements.

The European Union will support the Republic of Moldova in implementing the objectives and priorities set out in the Association Agenda. To do this, it will: use all available sources of EU support; provide expertise and advice; facilitate the sharing of best practices, know-how, and information; and support capacity-building and institutional strengthening. It will also encourage and seek coordination of support from the Republic of Moldova's other partners. It will use its relevant financial instruments to help implement the Association Agenda. However, the Association Agenda is not a financial programming document and is not a substitute for the financial programming carried out by the parties.

The EU will provide support in the context of the overall priorities for assistance to the Republic of Moldova, as outlined in the European Neighbourhood Instrument (ENI) Single Support Framework (SSF) and in the multi-country programming prepared for the Republic of Moldova through the ENI. It will do so in full compliance with the implementation rules and procedures governing EU external assistance.

The Association Agenda will be applicable from the moment of its adoption, for an initial period of three years, which may be extended by mutual agreement. Once it is adopted, it will replace the European Neighbourhood Policy (ENP) Action Plan as way of monitoring the Republic of Moldova's progress within the ENP framework. Civil society will also be encouraged to focus their monitoring work on the Association Agenda. The EU will be responsible for reporting on the implementation of the Association Agenda; it will be supported by the Republic of Moldova's own reporting systems.

If necessary, the Association Agenda may be amended or updated at any time, by agreement of the Cooperation Council (Association Council) of the European Union and the Republic of Moldova, in particular when the Association Agreement enters into force.

2. Priorities of the Association Agenda
