

About the campaign:

The European Union and its Member States are organising together a series of information seminars throughout India to raise awareness among Indian research stakeholders about the opportunities that they can offer for research and innovation cooperation, including mobility schemes for Indian students and researchers.

26 European S&T counsellors and representatives of research organisations from Belgium, Finland, France, Germany, Italy, Netherlands, Poland, Spain, the United Kingdom, as well as from the Delegation of the European Union, will make 100 presentations in 27 key research and innovation hot spots in India over a two-week period.

Such an unprecedented information campaign aims at addressing at the appropriate level and ambition the dynamic research and innovation cooperation between Europe with India.
