1. EUROMED YOUTH IV ENPI SOUTH REGION – SECOND ROUND

1.1. BACKGROUND

The Euro-Mediterranean Youth Programme (Euro-Med Youth, http://www.euromedyouth.net) is a regional programme set up within the framework of the third chapter of the Barcelona Process entitled “partnership in social, cultural and human affairs”. The Barcelona Declaration, adopted in 1995, laid down the foundations for the Euro-Med Youth Programme and stressed that ‘youth exchanges should be the means to prepare future generations for a closer co-operation between the Euro-Mediterranean partners’.¹

The Euro-Med Youth Programme focuses on activities promoting non-formal education, intercultural learning and active citizenship among young people, youth leaders and youth workers operating within the framework of youth organisations and civil organisations dealing with youth. The Programme has been designed to facilitate encounters, partnerships and networks within the Euro-Mediterranean cooperation.

Launched in 1999, the Programme has now entered its fourth phase. The Euro-Med Youth Programme Phase I (1999-2001) was based on the experience acquired with youth exchanges in Europe, while taking into account the needs of the Mediterranean partners. It consisted of the following Actions: youth exchanges, voluntary service and support measures (for youth workers and youth organisations). The Phase II of the Programme (2002-2004) carried on the same programme Actions of Euro-Med Youth Phase I and enlarged its scope by giving special priority to strengthening the support structures of the Euro-Med Youth Programme. Following the recommendations of the mid-term assessment, and similarly to the European Union Youth Programme, the overall management of the Programme Euro-Med Youth Phase III (2005-2008) was transferred from the European Commission headquarters in Brussels to the national authorities responsible for youth in the Mediterranean partner countries and territories (decentralisation).

Euro-Med Youth Units (EMYU) were consequently nominated and set up in the 9 involved countries and territories in order to manage the Programme. They were in charge of launching the procedure, selecting and contracting the projects and monitoring the projects in the field. This implementation modalities remains the same for the Euro-Med Youth Programme Phase IV which is funding this Call for Proposals. This Call for Proposals is funded by the European Union based on additional funds made available to the Commission Decision.

1.2. OBJECTIVES OF THE PROGRAMME AND PRIORITY ISSUES

The global objective of this Call for Proposals is to support and strengthen the participation and contribution of youth organisations and youth from the Euro-Mediterranean region towards the development of civil society and democracy.

The specific objective(s) of this Call for Proposals is/are:

- To stimulate and encourage mutual understanding between young people within the Euro-Mediterranean region and to fight against stereotypes and prejudices.
- To promote active citizenship among young people and enhance their sense of solidarity.
- To contribute to the development of youth policies in the different partner countries.

The specific objectives are to be attained through 3 different types of Actions as envisaged by the Euro-Med Youth Programme:

- Action 1 Euro-Med Youth Exchanges: A Youth Exchange is a project based on a transnational partnership between two or more organisations from different countries. It brings together in one of the 8 ENPI South countries/territories, for one specific period of common life, groups of young people from the

¹ Barcelona Declaration adopted at the Euro-Mediterranean Conference, 27-28/11/95, page 16
Euro-Mediterranean region, providing them with an opportunity to participate to activities where they can: discuss and share on one theme of mutual interest; discover and become aware of social realities and cultural backgrounds; learn from each other’s countries and cultures. A Youth Exchange requires the active participation of all groups of young people in the preparation and implementation of the activities. The Youth Exchange funded under this Call for Proposal is limited to funding ENPI South entities in hosting EU and other ENPI South beneficiary Countries and Territories.

- **Action 2 Euro-Med Youth Voluntary Service:** Voluntary Service is a project offering young people an opportunity to carry out a long or short term volunteering activity in one of the 8 ENPI countries/territories. The volunteer/s is/are hosted in one particular organisation of the ENPI South country, which has precise missions for him/her/them to implement. Voluntary service enables volunteers to express their solidarity, to acquire a valuable intercultural experience and to develop new skills. It brings benefit to local communities and to the hosting organisation (grant beneficiary), through a new impulse, the mutual exchange and the international added-value.

**Action 3 Euro-Med Youth Training and Networking:** Training and Networking includes project which support the training of those active in youth work and youth organisations of the Euro-Mediterranean region (youth leaders, youth trainers, young people), in particular the exchange of experiences, expertise and good practice as well as activities which may lead to sustainable quality projects, partnerships and networks. Possible activities to be implemented in projects are: study visit, partnership building activity, seminar, training course.

**A study-visit** is an organised study programme that offers a view of youth work and/or youth policy provisions in the hosting ENPI South country. Study visits focus on a theme and consist of visits and meetings to different projects and organisations in the country.

**A partnership-building activity** is an event organised in order to allow participants to find partners for trans-national cooperation and/or for project development. A Partnership-building activity brings together potential partners and facilitates the development of new projects around a chosen topic and/or a specific Action of the Euromed Youth Programme (Youth exchange, Voluntary Service or Training and Networking).

**A seminar** is an event organised to provide a platform for discussion and exchange of good practices, based on theoretical inputs, around a chosen theme, relevant to the youth work field.

**A training-course** is an educational learning programme on specific topics, aiming to improve participants’ competences, knowledge, skills and attitudes. Training courses lead to higher quality practice in youth work in general and/or, specifically, Euromed Youth projects.

In addition to the above global and specific objectives of the Euromed Youth Programme IV, some regional priority issues have been determined. They have to be taken into account in the projects implemented:

- Fight against racism and xenophobia,
- Environmental protection,
- Support to gender equality,
- Human rights,
- Participation of young people in development of civil society and democracy.

Complementary to the regional priority issues, the Euromed Youth Unit of Jorad has set the following national priority issues:

1. Youth participation: The Government of Jordan has adopted policies that encourage political and civic initiatives aiming outreach to and inclusion of larger segments of Jordan’s youth. The Government is committed to creating an enabling environment for such participation, recognizing the importance of engagement as we as the threats to the Kingdom’s peaceful and democratic development should our young population feel excluded or marginalized, especially given the

current regional security context. The commitment to promoting a meaningful role for Jordanian youth, however, stems from an understanding of that role’s importance as a pre-requisite for political, social and economic development.

2. Youth Employment: Increasing numbers of Jordan’s young, especially among women, find it difficult to enter the job market. In addition to providing space for youth civic and political engagement, it’s important that provide young people more job opportunities as well as the support services and job training necessary to allow youth increased access to the job market.

3. Combating extremist ideology: While progress toward an inclusive democracy and better employment opportunities is crucial, it’s important to address the forces of intolerance and extremism as imminent and dangerous threats to the Kingdom’s social cohesion and development aspirations. Much needs to be done to engage youth in civic and public life, promote equitable development and discredit destructive ideologies that teach hate and intolerance. Programs in youth outreach and empowerment will be much needed to counter extremism and pre-empt its influence.

4. Human rights and women empowerment: There are a number of policies and assistance programs that promote human rights and gender equity. However, there’s a need for institutional capacity building and expansion of best practices within Government and non-government entities alike.

In other words, projects should echo to one or more regional and/or national priority issues.

2. RULES FOR THIS CALL FOR PROPOSALS

These guidelines set out the rules for the submission, selection and implementation of the actions financed under this Call, in conformity with the Practical Guide, which is applicable to the present call (available on the Internet at this address: http://ec.europa.eu/europeaid/work/procedures/implementation/index_en.htm).

2.1. ELIGIBILITY CRITERIA

There are three sets of eligibility criteria, relating to:

(1) the actors:
   - The applicant, i.e. the entity submitting the application form (2.1.1), its co-applicant(s) (where it is not specified otherwise the applicant and its co-applicant(s) are hereinafter jointly referred as the "applicants") (2.1.1),
   - And, if any, affiliated entity (ies) to the applicant and/or to a co-applicant(s). (2.1.2);

(2) the actions:
   - Actions for which a grant may be awarded (2.1.4);

(3) the costs:
   - types of cost that may be taken into account in setting the amount of the grant (2.1.5).

2.1.1. Eligibility of applicants (i.e. applicant and co-applicant(s))

Applicant

(1) In order to be eligible for a grant, the applicant must:
   - be legal persons registered in Jordan and
   - be non-profit making and
   - be specific types of organisations such as: non-governmental organisations or institution, public sector operators, local authorities, involved in youth work and non-formal education (like non-governmental Youth associations, local authorities working with young people etc.), and
   - be established in an ENPI South Country/Territories (Algeria, Egypt, Israel, Jordan, Lebanon, Libya, Morocco, Palestine, Syria, Tunisia) and
   - be directly responsible for the preparation and management of the action with the co-applicant(s) and (if any) affiliated entity(ies), not acting as an intermediary.

(2) The potential applicant may not participate in calls for proposals or be awarded grants if it is in any of the situations listed in Section 2.3.3 of the Practical Guide;
In Part B section 8 of the grant application form (‘Declaration by the applicant’), the applicant must declare that the applicant himself, the co-applicant(s) and affiliated entity(ies) are not in any of these situations.

The applicant must act with co-Applicant(s) as specified hereafter.

If awarded the Grant contract, the applicant will become the Beneficiary identified as the Coordinator in the Special Conditions of the Grant contract. The Coordinator is the main interlocutor of the Contracting Authority. It represents and acts on behalf of any other co-beneficiary (if any) and coordinate the design and implementation of the Action.

**Co-applicant(s)**

Co-applicant(s) participate in designing and implementing the action, and the costs they incur are eligible in the same way as those incurred by the applicant.

Each project funded must be coordinated by an **Applicant from the ENPI South Country/Territories** and must involve:

- one co-applicant established in one of the 28 European Union Member States (Bilateral action);
- minimum of two Co-Applicants from any of the 28 European Union Member States and minimum one Co-Applicant from the ENPI South Country/Territories (Algeria, Egypt, Israel, Jordan, Lebanon, Libya, Morocco, Palestine, Syria, Tunisia), aiming at balancing participation from entities established in the EU Member States and ENPI South Country/Territories (Multilateral action).

Co-applicant(s) must satisfy the eligibility criteria as applicable to the applicant himself.

Co-applicant(s) must sign the Mandate in section 3.2 of the grant application form.

If awarded the Grant contract, the co-applicant(s) will become beneficiaries in the Action (together with the Coordinator).

### 2.1.2. Affiliated entities

Affiliated entity(ies)

The applicant and its co-applicant(s) may act with affiliated entity(ies)

**Only the following entities may be considered as affiliated entities to the applicant and/or to co-applicant(s):**

Only entities having a structural link with the applicants, in particular a legal or capital link.

This structural link encompasses mainly two notions:

(i) Control, as defined in Directive 2013/34/EU on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings:

Entities affiliated to a beneficiary may hence be:

- Entities directly or indirectly controlled by the beneficiary (daughter companies or first-tier subsidiaries). They may also be entities controlled by an entity controlled by the beneficiary (granddaughter companies or second-tier subsidiaries) and the same applies to further tiers of control;
- Entities directly or indirectly controlling the beneficiary (parent companies). Likewise, they may be entities controlling an entity controlling the beneficiary;
- Entities under the same direct or indirect control as the beneficiary (sister companies).

(ii) Membership, i.e. the beneficiary is legally defined as a e.g. network, federation, association in which the proposed affiliated entities also participate or the beneficiary participates in the same entity (e.g. network, federation, association) as the proposed affiliated entities.
The structural link shall as a general rule be neither limited to the action nor established for the sole purpose of its implementation. This means that the link would exist independently of the award of the grant; it should exist before the call for proposals and remain valid after the end of the action.

By way of exception, an entity may be considered as affiliated to a beneficiary even if it has a structural link specifically established for the sole purpose of the implementation of the action in the case of so-called “sole applicants” or “sole beneficiaries”. A sole applicant or a sole beneficiary is an entity formed by several entities (a group of entities) which together comply with the criteria for being awarded the grant. For example, an association is formed by its members.

**What is not an affiliated entity?**

The following are not considered entities affiliated to a beneficiary:

- Entities that have entered into a (procurement) contract or subcontract with a beneficiary, act as concessionaires or delegates for public services for a beneficiary,
- Entities that receive financial support from the beneficiary,
- Entities that cooperate on a regular basis with the beneficiary on the basis of a memorandum of understanding or share some assets,
- Entities that have signed a consortium agreement under the grant contract.

**How to verify the existence of the required link with the beneficiary?**

The affiliation resulting from control may in particular be proved on the basis of the consolidated accounts of the group of entities the beneficiary and its proposed affiliates belong to.

The affiliation resulting from membership may in particular be proved on the basis of the statutes or equivalent act establishing the entity (network, federation, association) which the beneficiary constitutes or in which the beneficiary participates.

If the applicants are awarded a contract, their affiliated entity(ies) will not be become Beneficiary(ies) of the Action and signatory(ies) of the Contract. However, they will participate in the design and in the implementation of the Action and the costs they incur (including those incurred for Implementation Contracts and Financial Support to third parties) may be accepted as eligible costs, provided they comply with all the relevant rules already applicable to the Beneficiary(ies) under the Grant Contract.

Affiliated entity(ies) must satisfy the same eligibility criteria as the applicant and the co-applicant(s). They must sign the affiliated entity(ies) statement in Part B section 5 of the grant application form.

### 2.1.3. Associates and Contractors

The following entities are not applicant(s) nor affiliated entity(ies) and do not have to sign the "mandate" or 'affiliated entities' statement":

- Associates

Other organisations may be involved in the action. Such associates play a real role in the action but may not receive funding from the grant, with the exception of per diem or travel costs. Associates do not have to meet the eligibility criteria referred to in section 2.1.1. Associates must be mentioned in — ‘Associates of the Applicant participating in the Action’ — of the Grant Application Form.

- Contractors
The grant beneficiaries and their affiliated entities are permitted to award contracts. Associates or affiliated entity(ies) cannot be also contractors in the project. Contractors are subject to the procurement rules set out in Annex IV to the standard grant contract.

Recommendations to award a grant are always subject to the condition that the checks preceding the signing of the contract do not reveal problems requiring changes to the budget (such as arithmetical errors, inaccuracies, unrealistic costs and ineligible costs). The checks may give rise to requests for clarification and may lead the Contracting Authority to impose modifications or reductions to address such mistakes or inaccuracies. It is not possible to increase the grant or the percentage of EU co-financing as a result of these corrections.

It is therefore in the applicant’s interest to provide a realistic and cost-effective budget.

Eligible direct costs

To be eligible under the Call for Proposals, costs must comply with the provisions of Article 14 of the General Conditions to the Standard Grant Contract (according to Table 1 and Table 2 above of the Guidelines).

Eligible indirect costs

The indirect costs incurred in carrying out the action may be eligible for flat-rate funding, but the total must not exceed 7% of the estimated total eligible direct costs. Indirect costs are eligible provided that they do not include costs assigned to another budget heading in the standard grant contract. The applicant may be asked to justify the percentage requested before the contract is signed. However, once the flat rate has been fixed in the special conditions of the standard grant contract, no supporting documents need to be provided.

If any of the applicants or affiliated entity(ies) is in receipt of an operating grant financed by the EU, it may not claim indirect costs on its incurred costs within the proposed budget for the action.

Contributions in kind

Contributions in kind mean the provision of goods or services to a Beneficiary(ies) or affiliated entity(ies) free of charge by a third party. As contributions in kind do not involve any expenditure for a Beneficiary(ies) or affiliated entity(ies), they are not eligible costs.

The contributions in kind may not be treated as co-financing by the Beneficiary.

Notwithstanding the above, if the description of the action as proposed by the Beneficiary foresees the contributions in kind, such contributions have to be provided.

Ineligible costs
The following costs are not eligible:

- debts and debt service charges (interest);
- provisions for losses or potential future liabilities;
- costs declared by the Beneficiary(ies) and financed by another action or work programme receiving a Union (including through EDF) grant;
- purchases of land or buildings, except where necessary for the direct implementation of the action, in which case ownership must be transferred to the final beneficiaries and/or local Beneficiary(ies), at the latest at the end of the action;
- currency exchange losses;
- credit to third parties.
- salary costs of the personnel of national administrations

2.2. HOW TO APPLY AND THE PROCEDURES TO FOLLOW

Prior registration in PADOR for this Call for Proposals is not obligatory. Information in PADOR will not be drawn upon in the present Call.

2.2.1. Application forms

Applications must be submitted in accordance with the instructions on the Full Application form included in the Grant Application Form annexes to these Guidelines (Annex A1 for Action 1, Annex A2 for Action 2 and Annex A3 for Action 3). Applicants must apply in English.

Any error or major discrepancy related to the points listed in the instructions for this Call or any major inconsistency in the application form (e.g. if the amounts in the budget worksheets are inconsistent) may lead to the rejection of the application.

Clarifications will only be requested when information provided is unclear, thus preventing the Contracting Authority from conducting an objective assessment.

Hand-written applications will not be accepted.

Please note that only the application form and the published annexes which have to be filled in will be evaluated. It is therefore of utmost importance that these documents contain ALL the relevant information concerning the action. No additional annexes should be sent.

2.2.2. Where and how to send Applications

Applications must be submitted in one original and two copies in A4 size, each bound. The complete application form and the budget must also be supplied in electronic format (CD-ROM) in a separate and single file (i.e. the application form in excel must not be split into several different files). The electronic file must contain exactly the same application as the paper version enclosed.

The Checklist (Section 5 of the grant application form) and the Declaration by the applicant (Section 6 of the grant application form) must be stapled separately and enclosed in the envelope.

Where an applicant sends several different applications (if allowed to do so by the Guidelines of the Call), each one has to be sent separately.

The outer envelope must bear the reference number and the title of the Call for Proposals, together with the title and number of the Action, the full name and address of the applicant, and the words ‘Not to be opened before the opening session’ and ‘الرجاء عدم فتح المغلف قبل جلسة فتح المغلفات’.
Applications must be submitted in a sealed envelope by registered mail, private courier service or by hand-delivery (a signed and dated certificate of receipt will be given to the deliverer) at the address below:

By Mail: P.O. Box 841 367 Amman, 11180, Jordan

For hand delivery or by private courier service

Program Management Unit

Applications sent by any other means (e.g. by fax or by e-mail) or delivered to other addresses will be rejected.

Applicants must verify that their application is complete using the checklist (Section 7 of Part B of the grant application form). **Incomplete applications may be rejected.**

### 2.2.3. Deadline for submission of Applications

The deadline for the submission of applications is 1/4/2015 as evidenced by the date of dispatch, the postmark or the date of the deposit slip. In the case of hand-deliveries, the deadline for receipt is at 3:30 PM as evidenced by the signed and dated receipt. Any application submitted after the deadline will automatically be rejected.

However, for reasons of administrative efficiency, the Contracting Authority may reject any application sent in due time but received after the effective date of approval of the first evaluation step (evaluation of the full application form) (see indicative calendar under Section 2.5.2)

It is therefore advisable to consult the abovementioned website regularly in order to be informed of the questions and answers published.
2.3. EVALUATION AND SELECTION OF APPLICATIONS

Applications will be examined and evaluated by the Contracting Authority with the possible assistance of external assessors. All actions submitted by applicants will be assessed according to the following steps and criteria.

If the examination of the application reveals that the proposed action does not meet the eligibility criteria stated in paragraph 2.1, the application will be rejected on this sole basis.

STEP 1: OPENING & ADMINISTRATIVE CHECKS & EVALUATION OF THE FULL APPLICATION

The following will be assessed:

- Compliance with the submission deadline. If the deadline has not been met, the application will automatically be rejected.

- The Application Form satisfies all the criteria specified in points 1-8 of the Checklist Section 5 of the grant application form). If any of the requested information is missing or is incorrect, the application may be rejected on that sole basis and the application will not be evaluated further.

Only the Applications that pass the first administrative check will be evaluated. The quality of the applications, the relevance and design of the action, including the proposed budget and capacity of the applicants and affiliated entity(ies), will be evaluated using the evaluation criteria in the evaluation grid below. There are two types of evaluation criteria: selection and award criteria. The selection criteria help to evaluate the applicant(s)’s and affiliated entity(ies)’s operational capacity and the applicant's financial capacity and to ensure that they:

- have stable and sufficient sources of finance to maintain their activity throughout the proposed action and, where appropriate, to participate in its funding;

- have the management capacity, professional competencies and qualifications required to successfully complete the proposed action. This also applies to any affiliated entity(ies) of the applicants.

The award criteria help to evaluate the quality of the applications in relation to the objectives and priorities, and to award grants to projects which maximise the overall effectiveness of the Call for Proposals. They help to select applications which the Contracting Authority can be confident will comply with its objectives and priorities. They cover the relevance of the action, its consistency with the objectives of the Call for Proposals, quality, expected impact, sustainability and cost-effectiveness.

Scoring:

The evaluation grid is divided into sections and subsections. Each subsection will be given a score between 1 and 5 as follows: 1 = very poor; 2 = poor; 3 = adequate; 4 = good; 5 = very good.
