
Chair,

1. The EU and its Member States thank the Secretariat for providing document SCP/29/2.

1. We also thank Argentina, Japan, Morocco, the Republic of Moldova, Singapore and Uganda for providing information concerning certain aspects of their patent laws.

1. Furthermore, we would like to express our gratitude to the Secretariat for updating and keeping up to date the SCP electronic forum website as agreed at the last session of this Committee. In times of huge masses of information it is not always easy to administer it in a way that others can retrieve it without any difficulties. The more we estimate the work of the Secretariat in undertaking this task.

1. We encourage all Member States to continue sharing their news in this respect with us and therefore contributing to a common better understanding.
Thank you.
