The correct application of financial sanctions is crucial in order to meet the objectives of the Common Foreign and Security Policy and especially to help prevent the financing of terrorism. The application of financial sanctions constitutes an obligation for both the public and private sector. In this regard, the EU assigns particular responsibility to credit and financial institutions, since they are involved in the bulk of financial transfers and transactions affected by the relevant Regulations.

In order to facilitate the application of financial sanctions, the European Banking Federation, the European Savings Banks Group, the European Association of Co-operative Banks and the European Association of Public Banks (“the EU Credit Sector Federations”) and the Commission recognised the need for an EU consolidated list of persons, groups and entities subject to CFSP related financial sanctions. It was therefore agreed that the Credit Sector Federations would set up a database containing the consolidated list for the Commission, which would host and maintain the database and keep it up-to-date. This database was developed first and foremost to assist the members of the EU Credit Sector Federations in their compliance with financial sanctions.
