

# Cholpon Ata water project

<b>Implementing organisation(s)</b>	<i>European Bank for Reconstruction and Development</i>
<b>Location</b>	<i>Kyrgyzstan, Cholpon Ata region</i>
<b>Keywords</b>	<i>Water infrastructure, sustainability, Kyrgyzstan</i>

## Program Development Objective

The European Union is providing support to the City of Cholpon Ata to rehabilitate water supply services and selected wastewater improvements in the region. Investments are expected to significantly improve infrastructure in the water system, reduce water losses, and optimise operating costs for the Cholpon Ata Water Company.

A total of 5, 1 million euros were invested to address the infrastructure and rehabilitation needs in the water sector in Cholpon Ata.

## Beneficiaries

5,896 people are currently serviced by the water companies in Cholpon Ata; the quality of service is predicted to serve 36,800 people after the project implementation.

## Project's activities:

- Improving critical water supply
- Rehabilitating networks
- Metering operation

- Maintenance equipment

## Location

## Expected outcomes

- The number of people with access to affordable, drinking tap water will increase from 5,896 to 36,800;
- Implementation of an individual metering system for each household and of a metering based billing;
- Reduction of CO2 derived from reduction in water losses at system level.
