

## EU Alumni

The European Union's exchange programmes, irrespective of whether a young leaders programme such as the [European Union Visitor's Programme](#) (EUVP) that invites participants to gain a first-hand appreciation of the EU's institutions, policies, and values, or whether more broadly in support of education, training, youth and/or sport such as [Erasmus+](#), remain hugely popular around the world.

In an effort to build and support a strong and vibrant [EU Alumni](#) community, a global platform has been established and EU Alumni are encouraged to register. The EU Delegation to South Africa assists in organising specific events for EU Alumni, e.g. a lecture series on EU-related topics, meet-and-greets and networking events, as well as extending invitations to EU Alumni to attend its public outreaches including cultural events, lectures, seminars, fairs, and receptions.
