districts

€1.5 M

Enabled Environment for Right-based, Inclusive Development and Improved Governance in Swat and Shangla Districts

■ OBJECTIVE

To empower and organize local communities so they can assess the quality of their public services and hold government departments accountable; and so they can advocate for the inclusion of their democratically-defined priorities in government development plans. The action will contribute to an improved governance and development process and strengthen the social contract between remote mountainous communities and local politicians and authorities.
