Relations between the European Union and Armenia are based on the EU-Armenia Comprehensive and Enhanced Partnership Agreement (CEPA), which was signed in the margins of the Eastern Partnership Summit in Brussels in November 2017 and entered into provisional application on 1 June 2018. The new agreement provides a framework for the European Union and Armenia to continue working together for the benefit of Armenian citizens. The CEPA is modern, comprehensive and ambitious. It takes into account the new global, political and economic interests shared by both sides. The agreement will enable stronger cooperation in sectors such as energy, transport, environment and trade.
