

EUROPEAN UNION

A European Agenda on Migration

State of Play: December 2016

A COMPREHENSIVE APPROACH TO MIGRATION

No Member State can effectively address migration alone. It is clear that we need a European approach. This requires using all policies and tools at our disposal – combining internal and external policies to best effect. All actors: Member States, EU institutions, International Organisations, civil society, local authorities and third countries need to work together to make a common European migration policy a reality. The European Agenda on Migration presented by the Commission in May 2015 set out the need for a comprehensive approach to migration management. Since then, a number of measures have been introduced to address the immediate challenge of the refugee crisis and the Commission has put in place all the important building blocks needed for a European approach to ensure strong borders, fair procedures and a sustainable system able to anticipate problems. What is needed now is a swift adoption of the Commission's proposals by the co-legislators and the full implementation by the Member States of the collective decisions taken.

18 May 2015	Military CSDP operation to disrupt the business model of human smuggling and trafficking networks in the Southern Central Mediterranean
