

EU+ Joint Programming for Nutrition

Draft action framework for 2016-2018

| Actions (refer to relevant action in JS) | How? | Who? MS or other donors/NDPF? | Timeframe |
|--|---|---|---|
| 1 MULTISECTORAL LEVEL: Ensure quality of nutrition indices in routine reports, such as the Health Management Information System (HMIS) from health facilities and supervision/evaluation procedures. Community health diagnosis, national surveys (e.g. Demographic and Health Surveys (DHS), NNP surveys) and surveillance — to include an analysis of the nutrition situation (nature, levels, distribution, trends, causes) and ensure data sharing in the “ <i>Unified nutrition information system</i> ” for national, regional and woreda level; | Overall | Leading MS: EU and DFID (Global Support Facility –NIPN and UNICEF – UNISE) Other MS (as advocates) | Ongoing until 2018? |
| | Develop content, funding, capacity for NIPN and UNISE and advocate with FMoH to support synergies between both systems and ensure sex disaggregation of data in these systems | EU and DFID funding. EPHI implementing in connection with NNP2 | Proposal developed by end of 2016. Project implementation from 2017 to 2021 |
| | Ensure data quality of all surveys, programme surveys, govt surveys etc by using standardized indicators and methodologies for nutrition indicators, sex disaggregated | All MS in their individual programmes | Ongoing |
| | Share tools, reports etc with special focus on gender specific indicators | EU to collate all tools from MS and conduct data landscape analysis | Feb 2017 |

| | | | |
|--|--|---|---------------------|
| | Workshop for EU+ on common methodologies, indicators etc? | EU | Apr 2017 |
| 2 HEALTH: Implement a comprehensive package of nutrition specific interventions: in line with MoH's approach of the Comprehensive and Integrated Nutrition Services packages (CINS). CINS aims to bring all nutrition services as a package: Community Based Nutrition (CBN), EOS, CHD, CMAM, Infant and Young Child Nutrition (IYCN), linked with nutrition sensitive interventions. Also Non Communicable Diseases (NCD) diagnosis and prevention and maternal nutrition, which has so far widely been neglected should be included in this package; | Overall | NL, EU, DFID, Irish Aid, | |
| | Organize Meeting with MoH: Get clarity from MoH on the CINS: what is expected from donors/implementing partners? | Irish Aid Working closely with UNICEF | May 2017 |
| | Workshop of MS implementing CINS (fully or partially) Harmonize among MS: are MS implementing the same parts the CINS package? harmonize approaches of implementation, identify geographic overlaps and gaps | EU to host | Jun 2017 |
| | Develop joint harmonized approach and recommendations for all MS towards implementing CINS in existing and future projects considering also gender equality and women empowerment aspects | EU to develop with input from all MS | Aug 2017 |
| 3 Health: Integrating MAM and SAM interventions | Discussion on moving towards MAM coverage and integration with SAM interventions Advocacy for second generation targeted supplementation feeding | ECHO, EUD, UNICEF, WFP | May 2017 |
| 4 AGRICULTURE: Increase year-round availability through production, storage and processing/preservation methods to reduce post-harvest losses, nutritional losses and improve food safety and increase profit margins; | Conduct a workshop on postharvest losses and processing | EU, Italy, GIZ | August 2016 |
| | Community exchange of experience: compilation of experiences/good practice with particular focus on gender-related experience empowering women | EU to compile with contributions from GIZ, NDPF and USAID | Start from Dec 2016 |
| | Set up model learning center for processing (develop model for other MS to replicate) considering involvement and needs of women | GIZ and/or FAO | Ongoing |
| | Create the link between EU+ and Network on home | EU joined the | March 2017 - |

| | | | |
|--|--|---|---------------------------------------|
| | gardens: propose compilation of good practice | Homegarden Network | ongoing |
| 5 WASH: Ensure mainstreaming of nutrition in water/sanitation/hygiene policies and programmes, such as the One Wash National Programme (OWNP) which should refer specifically to nutrition; | Overall | Policy level: EU, DFID, Finland Programme level: EU, GIZ, Italy, Czech Rep, | |
| | Develop an advocacy plan for mainstreaming nutrition and gender in WASH | EU, DFID | Apr 2017 |
| | Identify entry points for mainstreaming nutrition and gender in WASH and develop a model | EU, DFID | Apr 2017 |
| | Develop a gender sensitive Nutrition-Wash model | EU | Concept note before mid-December 2016 |
| | Present nutrition-WASH linkages and a model to ONE WASH working groups | EU, DFID | Jun 2017 |
| | Provide contributions to ONE WASH for mainstreaming nutrition (inclusion of indicators, also gender-sensitive) | EU, DFID | Aug 2017 |
| | Training for govt on nutrition sensitive WASH considering gender issues | EU, DFID (involve NGOs e.g Wateraid) | Sep 2017 |
| 6 Social protection: Support multisectoral collaboration between MoH, MoA and MoLSA; | Share lessons from pilot projects also looking into gender aspects Provide support to MoH focal person | Irish Aid, EU, DFID | Jan 2018 |
| | Contribute to harmonization of SBCC material | Irish Aid | Nov 2016 - |
| Additional priority actions | | | |
| 7 AG: Mainstream nutrition in SLMP and AGP | Overall | EU, GIZ, | |

| | | | |
|---------------------|---|-----------------------------------|---|
| | | Norway, Italy, Spain, Netherlands | |
| | Meet with MoA to better understand the structure for nutrition in the AGP and link btw AGP and nut case team etc | GIZ, EU | |
| | Establish/Strengthen Nutrition taskforce for AGP in GoE | GIZ, EU, RED-FS | |
| | Manual for all nutrition activities in the AGP II which are gender sensitive | EU | |
| | SLMP: GIZ to prepare for the next SLMP technical committee meeting to present NSA (ppt, advocacy messages, background materials) | GIZ, RED-FS | May 2017 |
| | Adapt AGP study to SLMP also considering gender entry points | EU, GIZ | concept note done Mar 2017 |
| | Develop advocacy messages for nutrition and also for gender where relevant | | |
| | Participate and present in next committee meeting | EU, GIZ, Norway | |
| 8 Pastoralist areas | Set up a pastoralist working group to ensure nutrition-mainstreaming in IDDRSI with quarterly meetings, also considering pastoralist women as a topic of discussion | EU, Italy, USAID, AfDB | Sep 2016 (first meeting) Feb 2017 second meeting |
| | Ensure that training materials for Development Agents are sufficiently tailored to Pastoralist areas and pastoralist women in particular (through participation in MoA TWG on training materials) | EU, GIZ | From Nov 2016 FAO workshop Dec 2016 |
