## Program Development Objective

The Osh Water II project aims at improving the availability, reliability and quality of municipal infrastructure in Osh region. Also, it focuses on the commercialization of water supply and sanitation in order to ensure operational and financial sustainability once the project is completed.

A total of 10, 6 million euros were invested to address the infrastructure and rehabilitation needs in the water sector in Osh region

## Beneficiaries

206,000 people are currently serviced by the water companies; their number is predicted to increase to 226,000 after the project implementation.

## Project's activities:

- Investing in the water supply infrastructure, that was not renewed since the Soviet era
- Improving wastewater management
- Metering operation
- Maintenance equipment

- Supporting the institutional reform of Kara- Suu Water Company including

## Location

## Expected outcomes by November 2022

- The number of people with access to affordable, drinking tap water will increase from 206,000 to 226,000;
