

**TAJIKISTAN**

**EU COUNTRY ROADMAP FOR  
ENGAGEMENT WITH CIVIL SOCIETY**

**2014 - 2017**

**Date of update: 26 February 2016**

## **PRIORITIES**

The European Commission's Communication "The Roots of democracy and sustainable development: Europe's engagement with Civil Society in external relations" identifies several areas where civil society actors can make a vital contribution to enhanced development and governance outcomes. The three priorities of the Communication, i.e. the **enabling environment**, the **roles and participation of CSOs**, and the **capacity of civil society** are contextualized in this document to the reality of Tajikistan with a vision towards the future.

The policy priorities here contained were defined through a process of consultation at different levels: within the EU Delegation, with Member States, with the civil society itself, as well as other international actors.

Finally, the Roadmap is not to be considered as a programming document. It is rather seen as a flexible and dynamic navigation tool, aimed at providing guidance for effective EU engagement with civil society at the country level. Priorities are therefore meant to reflect a strategic vision of change.
